

Built to government specifications

The DATAVAC/3 ESD* anti-static computer/electronic cleaning system.

Anti-Static wrist strap

Crevice tool to reach intricate parts

Model DV/3ESD1

DataVac gives you four stages of filtration

1. 0.3 micron 3-ply disposable filter bag
2. A cloth filter bag
3. Foam filter
4. A HEPA certified long life filter

Technical Specifications: 7.5 amps; 900 watts;
100 cfm; 85" waterlift; 120V; 60Hz 220V Models Available

- *Electro-Static Discharge Safe • HEPA Certified Filter
- Anti-Static Wrist Strap • Complete Set of Static-Fighting Cleaning Tools

The new DATAVAC/3ESD with HEPA filter is 99.97% effective in trapping particles of dust down to 0.3 microns. It keeps all your high tech equipment running smoother, longer. Unlike regular vacuums which redistribute the same dust, dirt and allergens back into the air, our HEPA filter-equipped environmental control system traps dirt and allergens into a tightly sealed filter bag.

Static is the #1 enemy of sensitive electronic equipment. DataVac/3ESD is equipped with a unique anti-static wrist-strap grounding the user from generating static.

DataVac/3ESD has a **virtually indestructible all-steel body** featuring a 2-speed 1.7 peak horsepower motor. It comes with a complete set of static-fighting cleaning tools including a 3-6 foot expandable stretch hose, crevice tool, dust brush and 5 extra triple layer 0.3 micron disposable bags.

In addition, a heavy duty foam-filled carrying case and shoulder strap make DataVac/3ESD easier and more convenient to use. Weight: 21 lbs.

Cleans the air as it cleans your equipment
